Your Enrolled Programs

Net Energy Metering (NEM2)

Your Account Summary

Amount Due on Previous Statement	$28,941.65
Payment(s) Received Since Last Statement	0.00
Previous Unpaid Balance	$28,941.65
Current Electric Monthly Charges	$26.88
Total NEM Charges	76.66
Taxes	0.07
Total Amount Due by 03/06/2026	**$29,045.26**

Your Net Energy Metering (NEM) Account Summary

Your Total NEM Charges are based on your Year to Date (YTD) charges and credits which are billed each month. Your last monthly bill for the 12-month reconciliation period will occur on your Annual True-Up statement **(01/2027)** . No credits will be carried over to your next True-Up period. Please see the "Summary of Your Year-To-Date (YTD) NEM Charges" page for more details.

YTD NEM Charges Before Taxes	$146.36
Previously Billed NEM Charges	-69.70
Total NEM Charges	**$76.66**

Please return this portion with your payment. No staples or paper clips. Do not fold. Thank you.

Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Demand charge: Many non-residential rates include a demand charge. Demand is a measurement of the highest usage of electricity in any single fifteen (or sometimes five) minute period during a monthly billing cycle. Demand is measured in kilowatts (or kW). High demand is usually associated with equipment start-up. By spreading equipment start-ups over a longer period of time, you may be able to lower demand and reduce your demand charges.

Time-of-use electric prices are higher every day during afternoons and evenings, and lower at other times of the day. Prices also change by season, with higher prices in the summer and lower prices in the winter.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently $0.00778 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to $0.00778 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

See the table reflecting "Your Electric Charges Breakdown" on the last page

"PG&E" refers to Pacific Gas and Electric Company, a subsidiary of PG&E Corporation. © 2026 Pacific Gas and Electric Company. All rights reserved.

Summary of Your Year-to-Date (YTD) NEM Charges

Service For: SEC 29 - 15/21
Service Agreement ID: 9485214577
Rate Schedule: AGA1 Ag<35 kW Low Use

Summary of NEM Charges

Bill Period End Date	Net Peak Usage (kWh)	Net Off Peak Usage (kWh)	Net Usage (kWh)	NEM Charges Before Taxes
03/16/2026	28	192	220	$69.70
04/16/2026	30	213	244	76.66
TOTAL	58	405	464	$146.36

Differences may occur due to rounding.

Explanation of Calculations

This is a monthly reconciled NEM statement. Your Total NEM Charges are shown in the table below. Your last monthly bill of the True-Up period (True-Up Statement) will occur in (**01/2027**).

YTD NEM Charges Before Taxes		$146.36
YTD Non-Bypassable Charges	16.37	
Previously Billed NEM Charges		-69.70
Total NEM Charges		**$76.66**

Calculation details: Each monthly billing period, you will see your YTD NEM Charges, which represent the total charges for energy used, net of any credits for energy exported to the power grid. Each month, the amount owed will be determined by the charges and credits you accrued since the beginning of your Annual True-Up period. The Annual True-Up process allows you to use credits generated in a given month to offset charges across other monthly billing periods within the year. The amount owed in a given month or True-Up period, however, cannot be lower than the sum of your YTD State Mandated Non-Bypassable Charges. In addition, generation is always charged, if positive.

To calculate what is owed in a given monthly billing period, the greater of the following Year-to-Date (YTD) charges accrued since the start of your Annual True-Up period is determined:

1) YTD NEM Charges Before Taxes (inclusive of Generation Charges[1])
2) YTD State Mandated Non-Bypassable Charges[2] + YTD Generation Charges (if positive)

All Previously Billed NEM Charges within the current Annual True-up period are subtracted from your Total NEM Charges. If your Previously Billed NEM Charges are greater than your YTD NEM Charges, you will see a credit to your account. All charges and credits will be reset to zero at True-Up.

Fixed charges and demand charges are billed separately each month and cannot be offset by NEM energy credits.

[1] Generation Charges are commodity costs related to energy usage. You can go to **pge.com/electricrates** to find the generation component of your electric charges.

[2] Refer to the Details of NEM Charges page in this bill for more information about the State Mandated Non-Bypassable Charges.

Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Demand charge: Many non-residential rates include a demand charge. Demand is a measurement of the highest usage of electricity in any single fifteen (or sometimes five) minute period during a monthly billing cycle. Demand is measured in kilowatts (or kW). High demand is usually associated with equipment start-up. By spreading equipment start-ups over a longer period of time, you may be able to lower demand and reduce your demand charges.

Time-of-use electric prices are higher every day during afternoons and evenings, and lower at other times of the day. Prices also change by season, with higher prices in the summer and lower prices in the winter.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently $0.00778 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to $0.00778 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

Summary of Your Year-to-Date (YTD) NEM Charges

Service For: SEC 29 - 15/21
Service Agreement ID: 9485214577
Rate Schedule: AGA1 Ag<35 kW Low Use

Summary of NEM Charges

Bill Period End Date	Net Peak Usage (kWh)	Net Off Peak Usage (kWh)	Net Usage (kWh)	NEM Charges Before Taxes
03/16/2026	28	192	220	$69.70
TOTAL	28	192	220	$69.70

Differences may occur due to rounding.

Explanation of Calculations

This is a monthly reconciled NEM statement. Your Total NEM Charges are shown in the table below. Your last monthly bill of the True-Up period (True-Up Statement) will occur in (**01/2027**).

YTD NEM Charges Before Taxes		$69.70
YTD Non-Bypassable Charges	7.76	
Previously Billed NEM Charges		0.00
Total NEM Charges		**$69.70**

Calculation details: Each monthly billing period, you will see your YTD NEM Charges, which represent the total charges for energy used, net of any credits for energy exported to the power grid. Each month, the amount owed will be determined by the charges and credits you accrued since the beginning of your Annual True-Up period. The Annual True-Up process allows you to use credits generated in a given month to offset charges across other monthly billing periods within the year. The amount owed in a given month or True-Up period, however, cannot be lower than the sum of your YTD State Mandated Non-Bypassable Charges. In addition, generation is always charged, if positive.

To calculate what is owed in a given monthly billing period, the greater of the following Year-to-Date (YTD) charges accrued since the start of your Annual True-Up period is determined:

1) YTD NEM Charges Before Taxes (inclusive of Generation Charges[1])
2) YTD State Mandated Non-Bypassable Charges[2] + YTD Generation Charges (if positive)

All Previously Billed NEM Charges within the current Annual True-up period are subtracted from your Total NEM Charges. If your Previously Billed NEM Charges are greater than your YTD NEM Charges, you will see a credit to your account. All charges and credits will be reset to zero at True-Up.

Fixed charges and demand charges are billed separately each month and cannot be offset by NEM energy credits.

[1] Generation Charges are commodity costs related to energy usage. You can go to **pge.com/electricrates** to find the generation component of your electric charges.

[2] Refer to the Details of NEM Charges page in this bill for more information about the State Mandated Non-Bypassable Charges.

Additional Messages

The State Mandated Non-Bypassable Charge (NBC) is calculated based on your energy usage and is relevant to determine the True-Up amount. This charge includes the following fees: Public Purpose Programs, Nuclear Decommissioning, Wildfire Fund Charge and Competition Transition Charge. The NBC Net Usage Adjustment is to ensure that you don't pay for NBCs twice.
